

# BERMAGUI PRESCHOOL

## 5.07 Computers and Technology

### Written By

Narelle Myers

### Aim

- Introduce and develop computer skills
- Provide awareness and access to information technology and the broader community, through the use of the computer and access to the internet
- Develop cognitive skills through the use of developmentally appropriate software programs, web sites, etc.
- Develop fine motor skills, including hand/eye coordination

### Strategies

- Children will be instructed in the technique, safety etc before using the computer
- Children will be supervised at all times when using the computer
- Children will take turns to use the computer, one child at a time
- Developmentally appropriate software will be used
- Use of the web sites will be screened for appropriateness
- Please note, computers and technology are only to be used to supplement learning. The use of books, storytelling, conversations and hands on resources should be used with children in the first instance.

### Relevant Legislation

Education and Care Services National Regulations 2011  
National Quality Standards 2010
